another organ,...

SENATOR ROBAK: And this is why I like to have this bill heard in the Health and Human Services Committee, because those that serve on that committee are more in tune with this type.... I'm not done, Senator Landis, I have another question to ask you. And you said that you...you have made a remark that you think that it's social responsibility, and that we have a responsibility to take care of each other, or something to that effect.

SENATOR LANDIS: Uh-huh, I did.

SENATOR ROBAK: Okay. Then do you think it's a public responsibility to take care of those that suffer from heart disease?

SENATOR LANDIS: I do think it's the responsibility of the public to take care of the needy with respect to mental health disease.

SENATOR ROBAK: I'm not talking about needy, I'm talking about those with heart disease,...

SENATOR LANDIS: Right.

SENATOR ROBAK: ...or those with cancer.

SENATOR LANDIS: Right.

SENATOR ROBAK: A public responsibility, we should all dig in our pockets to take the social responsibility, take taxpayers' dollar, put it all in one heap, sales and income tax, or whatever you call it,...

SENATOR LANDIS: Right.

SENATOR ROBAK: ...put it in a heap and say these people with cancer, or these people with heart diseases...

SENATOR LANDIS: Right.
